

Thanks guys for demonstrating and inventing the Light Pole Dancer. This is an excellent investment and works great. Extremely easy to assemble and operate. It has saved \$100s to \$1000s in time and money by not having to locate and hire a crane to set light poles. Highly recommend this great product for the ease use and the value. If anyone in my area would like to see demonstrated, let me know would be more than happy to do so. Just give me a call. Thanks again guys for everything.
